

Thursday's Daily Special: Flex Schedule

Get ready to flex your schedule on Thursday!

There are a lot of different ways to do flextime work, but the main goal is to get you out of rush hour traffic. Shift your schedule so that you're not on the road from 7-9 am and 4-6 pm, when Austin traffic is the worst. If your commute is a headache, those are probably the times you're driving in it!

If you're commuting by car this week, arrange to come in/leave before traffic is bad or come in/leave after traffic subsides. But be sure to talk to your manager to get approval first. Overall, flextime is a win for everyone. Less time in traffic means more time to be productive at work and less stress and frustration.

To help you get the most out of your flextime schedule, try the [free Metropia app](#). Metropia provides info to help you plan your commute and spend the least amount of time in traffic. With Metropia, you can earn rewards from local partners like Tacodeli and Luke's Locker. Create a new account and take your first trip between Nov 2nd - 6th, and you will receive a 1000 point bonus—that's enough to redeem a \$5 gift card! Learn more here: metropia.com/austin
